Custom Requests

Getting paid is as easy as one, two, three!

Follow these three quick steps to create a more professional point of payment for your members.

1

Copy your payment link from your AffiniPay account.

Don't know where to find your link? Watch our video tutorial [here](#), or call our support team at 855-656-4685 for assistance.

2

Select a payment button from this catalog.

3

Add functionality and action to your button image by attaching the URL as a hyperlink* on your website, invoices, or email signature.

**Note: If your website builder does not allow you to create image hyperlinks, contact our support team and we can provide you an HTML snippet to achieve the same result.*
