

Boost efficiency and cash flow with **BQE CORE + ClientPay**

The BQE CORE integration with ClientPay gives you the power to add secure payment processing to the practice management solution you already know and trust.

Since ClientPay's solution was built specifically for building and design professionals, it's easy to seamlessly incorporate online payments into your current workflow. You can stop worrying about unpaid invoices and focus on more important tasks.

Why Choose ClientPay + BQE

- With our flexible, web-based integration, you can accept client payments from anywhere—in your office, online, or even at a project site.
- Improve efficiencies and save time by running all aspects of your business from a single application.
- Automate cash flow and guarantee payments by setting up one-time future charges or establishing automatic recurring payments with Scheduled Payments, included at no extra cost.
- Leverage ClientPay's user-friendly payment technology and BQE CORE's industry-leading project accounting software to support your unique workflow.

Key Integration Features

- Credit, debit, and eCheck acceptance
- Recurring and scheduled payments
- Secure, customizable payment page
- PCI Level 1 security and compliance
- Expert in-house support
